Highly qualified team

Founded by Top-tier Technology Professionals with Global experience in Digital Transformation and Tech Services.

Highly Technical Staff with years of experience in Automation Services

How we transform your lifestyle

Your Property, Your Rules - Automated with Precision

Automation Scenes

- Sync lights to sunrise and sunset
- Guest lighting mode with AC's
- Energy saving mode
- Water Pump on Auto Pilot
- Block peak-hour misuse of AC, Water Heater, Water pump etc.
- Kill vampire energy drains

..tell us your pain, we code the fix

See Everything, Waste Nothing

- Track real-time energy use
- Turn off AC's & Lights when no one's there
- Stop water-tank overflow
- Turn on AC's automatically based on presence or temperature
- Get breach alerts

..all from one app

Your Idea + Our Passion = Magic

IFTTT at its best with Tech Munk!

- Turn on all outdoor lights with one click without additional electrical wiring
- Group lights as you wish
- Schedule anything

..your wish is our Automation command

Vampire Energy Drain

Vampire Energy Drain costs U.S. households \$100-200 a year on average - US Dept. of Energy

What is it?

It's the power consumed by Electronic Devices aka. Appliances that are plugged in but not actively in use, even when they are turned off for e.g. TV's, Microwaves and AC's.

At Tech Munk, we have mastered the art of keeping this issue at bay. Our Solution will shutdown desired Appliances to bring down your energy Bills at the times of your choice.

Social Responsibility

At Tech Munk, we are committed to reducing Carbon footprint by providing tangible value to our Customers. We do this by leveraging cutting-edge technology to simplify Resource Management, reduce waste of energy, water and human effort.

Let us help you on your journey to a Smarter Home, a Safer Home.

*We listen first, automate later. No cookie-cutter solutions
—just your Home, smarter.*
